SUMMARY

Results-driven Identity & Access Management (IAM) architect with 10+ years of experience designing and implementing secure, scalable, and compliant IAM solutions across enterprise environments. Proven track record in leading cross-functional IAM programs, including policy development, identity lifecycle automation, and cloud-based access governance using NetIQ (eDirectory), MIM, Entra ID Governance, and custom solutions. Expert in scripting, provisioning automation, and integrating identity data across diverse platforms. Recognized for driving operational efficiency, enhancing security posture, and collaborating with security, IT, and business teams to align IAM with enterprise goals.

EXPERIENCE

Enterprise Architecture Team Lead | Vayyar Imaging LTD | Yehud, Israel | February 2019 – December 2024

- Managed eCommerce/Web operations and enterprise-level IT projects (dual role).
- Designed, implemented and deployed an Azure-based IAM platform supporting onboarding/offboarding workflows, SSO integrations, and lifecycle management for internal and external users.
- Architected and implemented Entra ID Governance workflows and automated identity provisioning processes, reducing onboarding time and increasing policy compliance.
- Served as O365 Enterprise Admin: Deployed AIP, migrated mailboxes and data from Gdrive/Dropbox, configured teams, SharePoint and Exchange online permissions.
- Built and maintained custom ETLs and data warehouses for IAM reporting and audit trails and eCommerce using C#, Python, and SQL.
- Reduced cloud infrastructure costs by ~$1.2M through service consolidation and improved visibility into account access patterns across AWS, Azure, GCP, and AliCloud.
- Led enterprise-wide initiatives including an Office 365 migration (from GSuite), HRIS rollout (BambooHR), ERP implementation (NetSuite), and ecommerce platform migration (Magento to Shopify), Vayyar.com/Walabot.com, managing cross-functional teams, external vendors, and contractors to deliver on time and under budget.

Data and Identity Management Consultant | MIPRO Consulting | Tel Aviv Area, Israel (Remote) | February 2018 – December 2018

- Acted as a staff augmentation resource for Adventist Health System, contributing to multiple IAM projects.
- Responsibilities include reporting platform upgrade (SSRS 2016), ETL changes, perform application/database system migration to a new platform (Windows 2016/SQL 2016) as well as backend design and oversight for custom C# WEB API for Identity Management provisioning/auditing.

Identity Management Architect | Adventist Health System | Altamonte Springs, FL | March 2013 – February 2018

- Led a team of 7, overseeing task management, weekly meetings, budget planning, change control, job descriptions, consulting services, and project management.
- Architected and maintained a centralized identity platform (NetIQ/eDirectory), integrating over 200 applications and 80% of enterprise users via automated provisioning.
- Collaborated with security and compliance teams to develop IAM policies aligned with internal controls and external standards.
- Led IAM policy creation sessions with hospitals and executive boards, aligning identity strategy with regulatory frameworks (e.g., HIPAA, audit compliance).
- Designed and delivered access governance dashboards and reports via SSRS and SQL Server DWH to monitor credentialing, dormancy, and access review cycles.
- Reduced audit response time by over 80% and improved IAM SLA metrics by developing and scripting IAM process automations.
- Collaborated with cross-functional IT teams to integrate IAM solutions within existing enterprise systems.

Senior Information Security Analyst/Team Lead | Adventist Health System | Lake Mary, FL | January 2012 – March 2013

Intermediate Information Security Analyst | Adventist Health System | Lake Mary, FL | August 2010 – January 2012

EDUCATION

MS, Management Information Systems | University of Central Florida | Orlando, FL | 2009

BS, Information Technology | University of Central Florida | Minor in Management of Information Systems | 2008

CERTIFICATIONS

Certified Information Security Auditor | ISACA

CompTIA Security+ Certification | CompTIA | 2018

SKILLS

Fluent in both English and Hebrew

Clouds: AWS (medium high proficiency), Azure (medium), GCP (proficient).

IAM: Entra ID, NetIQ, MIM, SAML/P, oAuth, OpenID, LDAP, SCIM

Large SaaS Platforms: Microsoft 365, Salesforce, Google Workspace, Salesforce, Atlassian, BambooHR, Oracle HCM/FSCM/CRM, ServiceNow

Scripting & Automation: Python, Bash, PowerShell, C#, JavaScript, Java
